

Drawing Tools: Quick Settings & Colors

for your ProAct charts on TradingView

The settings and colors Chris uses in the drawing tools video. For a **custom color**, click the color, then **+**, type the code and click **Add**. After you set up each tool, open **Template → Save as...** and name it, so you never have to redo it.

Candles

Right-click the chart canvas → Settings → Symbol

Body (up candles)	Custom	 #05570b
Body (down candles)	Custom	 #9f131f
Borders (up and down)	Black (palette pick, both)	
Wick (up candles)	Custom	 #41ff03
Wick (down candles)	Pure white (palette pick)	

Custom color: type the code in the color box and click Add.

Color codes (as shown in your settings)

 **#05570b**

 **#9f131f**

 **#41ff03**

Body, up: #05570b Body, down: #9f131f Wick, up: #41ff03
